

## MARKET NOTICE

**Market Notice: 2022\_07**

**Date: 8/12/2022**

**Subject: Initial AFMA Carbon Market Conventions**

---

AFMA has published the initial version of the [Carbon Markets Conventions](#). The conventions are intended to streamline market practices in the Australian Carbon Credit Unit (ACCU) market and provide the basis for standardised trading in the over-the-counter ACCU market.

The conventions have been developed by our Carbon Markets Committee and reflect current practices in the ACCU market. They supersede AFMA's Environmental Products Conventions for ACCUs.

The Carbon Markets Committee is responsible for maintaining and updating these conventions.

---

Please contact [Lindsay Gamble Director - Policy](#) if you have any questions regarding this notice.
