

Introductory OTC Documentation

A highly practical half-day workshop introducing participants to the *AFMA Online Guide to OTC Documents*, an online publication that provides standardised documentation for products traded on Australian and New Zealand OTC markets under the ISDA® Master Agreement.

A combination of lectures, examples and online demonstration is utilised to assist participants to develop an understanding of the value, importance and operational best practice of the ISDA® Master Agreement and its components.

A half-day workshop providing participants with an overview of the *AFMA Online Guide to OTC Documents* publication.

Through a series of short lectures and hands-on examples, including case studies and deals, participants will learn about the structure, content and format of a completed Schedule to the 2002 ISDA® Master Agreement. Discussion of the 1992 Master Agreement will provide historical context and illustrate the main areas of progression and why changes were necessary.

The workshop outlines the range of derivatives products and types of transactions, netting and important legal and operational issues. The presenter will have access to the *AFMA Online Guide to OTC Documents* throughout the workshop and will demonstrate how it works and the information available.

We recommend attending the Advanced OTC Documentation Workshop within six months of completing the Introductory Workshop.
